And you will hear yourself when the rain begins to fall
Feel the fire
Burning inside us all
Remove me
For going in unchained
Blow away for to softly gather again
And listen to the conversations of the sea
Inside us all
Lies a quiet beach
If we fall into our center we'll become free
I myself
Could use a little clarity
I am so full of love
I am so full of hate
I am so full of these feelings
That tear me every which way

I am so full of you
I am so full of me
I am so full of these words
That don't tell her a fucking thing

I am so full of love
I am so full of hate
I am so full of these feelings
That tear me every which way

Then I opened up my mouth
I'm a cloud
And these words they seldom come out
When I looked into her eyes I cared enough to wonder
why
She'd want a cloud just floating around.

But I feel it's time to say goodbye to fear
And feel the fury of these tears
As they run down my face
I can feel her so far away
'Cause I am
A cloud
And I am

So afraid

So don't you come and gather at me in this haze
I sit at home and feel the suns days
As she gently melts a little everyday
I blow away remaining unfazed
When I feel there's something coming down on me
I'm just a cloud watching the moon rise

These mother fuckers stepped on me
Tried to fuck me from behind
'Cause I'm a cloud
And I am so afraid

And I
I am so full of love

(chorus)
