All my life I never wanted to cause pain?
To anyone's heart but these words are in vain
She's grown as angry as a furious night sky
So gather children and prepare me for the sacrifice?
A soul that's full of hate requires retribution?
What happened to love's flash evolution??
See me standing naked in a pool of my blood?
Prepare yourselves as the tears gather for the flood?

But don't you wonder if I love her?

Don't you wonder if I love her?
Don't you ever think they did care?
Oh welcome to love core?

Now my friend all these thoughts that travel through
my mind?
Guilty killed so are you ready to die??
We are forever walking nearest the flood we despise
Now I feel like the fucker who ruined her life
Feels like that there is rusting in the way of love
Love's redemption can't defy the ocean?
Sometimes it seems like a little bliss is full of loss?
Gather children come and carry me to the cross?

But don't you wonder, if I love her??
Don't you ever, think I cared??

RESPECT!

Don't you wonder if I love her??
Don't you ever think they did care??
Oh welcome to love core x2

Another salt in her hand?
When she peels off my skin?
Oh welcome to love core?

All my life I never wanted to cause pain?
Anyone's heart but these words are in vain?
She's grown as angry as a furious night sky?

So gather children and prepare me for the sacrifice?
A soul that's full of hate requires retribution?
What happened to love's flash evolution??
See me standing naked in a pool of my blood?
Prepare yourselves as the tears gather for the flood?

And don't you wonder if I love her?
Don't you ever think they did care?
Oh welcome to love core?
Don't you wonder if I love her?
Don't you ever think they did care?
Oh welcome to
Love core!!! x4
