Stop pretending this world keep turning upon you  
You're destroying my way I fucking must to go  
Stop disturbing the minds you'll never gonna know  
Now is my mind that you will see explode as fuck.

Just like Ubermench, will get over me  
This world's an empty space  
But I will die with a laught on my fuckin' face.

You'll brutally cry on my carcass as anyshit  
No doubt I became my animal now outside of me  
This monster that ate my soul is like a motha' fuckin'  
beast  
I know that was me fucking angry, finding sex appeal.

You cant' make this moment! NeverÂi we won't last  
together  
Even you can fuck this moment until we can live  
forever.

This is my return, I'll fight  
This is my, my wolf inside.

I'll fight for honor  
I'll fight for future  
I'll fight for you  
ÂiINMORTALITY!

Stop pretending this world keep turning upon you  
I will break the divinity.
