[Verse 1]

This sprung dime tried to fall, seasons change
Our love is off the chain like a illegal slave
Rewind on that salad tried to get ha out that dressing
Crib quiet organized tonight it's getting messy
Lights out, bra and panties covering the lamp
Take you round the woods, yeah I show you how to
camp
Could've sworn you ahead, you behind with that butt
You should be my squirrel, you got me going nuts
On a tree is where I lean, team leaf getting green
Read your body like a stream so hot you see the steam
No she ain't an actress, still she'll cause a scene
Zipper up, zipper down, lips on my jeans
Got her on my cone, yes I make ha scream
I-scream? jajaa never that
Tryna take you home and I'm swinging with my bat
Hit a pop up let you catch it where it's at

[Hook]

Just give me brain
So you can be the last thing on my mind
College grind, knowledge time
Just give me brain
So you can be the last thing on my mind
Zombie life, zombie night
Just give me brain
So you can be the last thing on my mind
Baby one more time
Just give me brain
So you can be the last thing on my mind

[Verse 2]

2nd place, almost home, where do I go?
Met ha when I was four, neglection I was on
Ignored me, enjoyed me, I think she employed me
Working for ha love, tryna get promoted
Ain't getting laid or paid not tomorrow not today
Got me on a rage turn super-sane
Super saiyan, that's what I'm saying
Love is a slave every night she had me slaying

Every night she had me praying because she was the
devil
So good so hot the fire to my kettle
Missing pieces to my lego
But I gotta let go
This-is-reality
And I wanna fantasy, you and me every night
Come and take my pillows pride, let me slide
And take you home, I'm tired being alone
Private tutoring from morning to dawn
