All my life i've been lookin for a rainbow
I was startin to thick that i was colour blind
You walked in the room and there's my pot of gold
And i can just leave everything behind
All this time i've been runnin round in circles
I was startin to think that i would lose my mind
But you came along and pulled me from the danger
Its a merry go round and i don't wanna get off this ride.

You got to me without a warning
You got to me when i had nowhere to go
Now i see the colour in the night
In black and white
I can't remember how i used to be
And i can't get outta bed but i can dream
You got to me
You got to me

All good things must come to those who wait for
For every good reason there's gotta be a very good
rhyme
All my life i've been tryin to find an answer
And now i know i have to take my time

You got to me without a warning
You got to me when i had nowhere to go
Now i see the colour in the night
In black and white
I can't remember how i used to be
And i can't get outta bed but i can dream
You got to me
Maybe it was just the way you held me
When my world was hangin by a string
Maybe it was just the way you knew me
When i didn't know myself
And everything felt
Like Hell

You got to me without a warning
You got to me when i had nowhere to go
Now i see the colour in the night

In black and white
I can't remember how i used to be
You got to me without a warning
You got to me when i had nowhere to go
Now i see the colour in the night
In black and white
I can't remember how i used to be
And i can't get outta bed but i can dream
