"Green Stuff"

Visit "[Green Stuff](#)" on MotoLyrics.com

I ain't got much money & I ain't got much time
But I sure got some trouble with this life of mine
Behind with my payments, got the heat on my tail
Police don't believe me, put me in jail
Could've used a little green stuff
Could've used a little help
Could've used a little green stuff
Could've used a little wealth
Could've used a little green stuff
just to help myself
Could've used a little green stuff
just to mind my health
Well whisky & women sure done me some harm
A little juice & I'm wasted, fall easy to charm
A ring on my finger, my name on the line
She knows I'm just stupid an' I wonder why
Could've used a little green stuff
Could've used a little help
Could've used a little green stuff
Could've used a little wealth
Could've used a little green stuff

just to help myself

Could've used a little green stuff

just to mind my wealth

Now my money & my woman long gone out the door

Got to get down to the track, I got to pick up some more

Place a few bets, use the last of my cash

My horse is still runnin', they're gonna turn me to trash

Could've used a little green stuff

Could've used a little help

Could've used a little green stuff

Could've used a little wealth

Could've used a little green stuff

just to help myself

Could've used a little green stuff

just to mind my health
