Im stepping out on Main Street

Been a long time gone

Yes Im stepping out on Main Street

Ive been a long time gone

Well I stood as judge and jury

I threw away the key

I didnt give no hearing

Didnt want to hear from me

I was standing as defendant

Pleading guilty to the charge

I called for prosecution

No punishment too harsh

Butm back

on the downtown Main Street track

Well Im walking down the Main Street

Been a long time gone

Yes Im walking down the Main Street

Ive been a long time gone

Id been living in the fast lane

Pushing way too hard

Burning up at both ends

My head before my heart  
Somethings gotta give  
When you empty out your tank  
Nothing in reserve  
No credit in the bank  
But Im back  
on the downtown Main Street track  
Well Im running down the Main Street  
Been a long time gone  
Yes Im running down the Main Street  
Ive been a long time gone  
Well I heard my soul a-calling  
We all got that voice within  
Finally started listening  
to some sense, meant I began  
to understand the need  
for my friends, my family  
Guess it took the dark  
to see the light in front of me  
But Im back  
on the downtown Main Street track (repeat)
