"Disease of Humanity"

Visit "[Disease of Humanity](#)" on MotoLyrics.com

It's one in the morning
Just me and my bro's
Boards in the back
We're ready to go

The highway is empty
There's no one else in sight
We're heading south
For one hell of a night

We're kids out to have some fun
Skate a little outside in the sun
We just like to have fun, can't you see?
We are the disease of humanity

The music we choose
The clothes that we wear
Who we hang out with
How we do our hair

You all raise a fuss
When we let out a little cuss
This all seems to bother
Everyone but us
