"My Week's End"

This week the best experienced
Your smile, your eyes
Enough to make me delirious
I'm weak, but i am serious
This time, I realize
This time, I realize

Monday we went on our first date
Tuesday it seemed like fate
Wednesday things started to go wrons
Thursday we knew it wouldn't last long
Friday things started to fall apart
Saturday night you broke my heart

Next week, hope it improves
'Cuz this week, I'm falling for you
He's still around but thats ok
Cuz when he's gone i won't fade away
I'll wait around and play the game
But the prize isn't money, glory, or fame
I hope this finds you well and in due time
I hope that one day you'll be mine
