At least tomorrow you'll be there
But did it seem i wasn't aware?
At least tomorrow I'll know the truth
For all those times you lied

I can't believe this is all so real
To believe is to bend and to bend is to break
Why did i ever have that feeling
Did I judge you or make a mistake?

When I'm with you i bite my tounge
Knowing all the thing's you've done
I sit and wait for the time
To tell you that i know

I can't believe this is all so real
To believe is to bend and to bend is to break
Why did i ever have that feeling
Did I judge you or make a mistake?
