Traditional Values

Still like to get fucked
Still like to get stoned
Still like to wake up
Not sure if I'm alone
I've got Traditional Values

Never been to the Bank
Don't like to pay bills
No money in my pockets
Bet you know how that feels
I've got Traditional Values

Born with no purpose, no mission, no fate
Just doin' time in a world of hate
Raised in a generation lost in time
Pulling it together ain't no job of mine
I've got Traditional Values

Still like to ditch work
Still like to drink and drive
Still like to find out
If I can make it home alive
I've got Traditional Values

Never understood rules
Can't apologize
Even when I lie
I Look you right in the eyes
I've got Traditional Values
