

## Capricorns, The "The New Sound"

Visit "[The New Sound](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You wanna go, you wanna play it for the hip kids  
I know you fake it but it's none of my business  
I wanna come, I wanna party with the hip kids  
If I wanna fake it it's none of your business

Got the clothes, got the keys to your new car  
I wanna go wanna drive, drive fast go far  
Wanna dance, wanna drink 'till you can't stand up  
Come on baby I can tell that you're not that tough

Curtain goes up and the lights come down  
Gotta have the new, look gotta hear the new sound  
I'll be there, I'll be dancing in the front, front row  
I don't care, I don't mind 'cause I think you're-

Curtain goes up and the lights come down  
Wanna see the new look, gotta hear the new sound  
And the crowd starts to dance when you hit that chord  
Got the style and the cash and they'll always want more

You wanna go, you wanna play it for the hip kids  
I know you fake it but it's none of my business  
I wanna come, I wanna party with the hip kids  
If I wanna fake it it's none of your business

When you walk the street the girls turn and stare  
When you wear your clothes, the way you cut your hair  
Tell me something new I'm getting bored  
Make a cute remark, I'm keeping score

Curtain goes up and the lights come down  
Gotta have the new look, gotta make the new sound  
I'll be there, I'll be dancing in the front, front row  
I don't care, I don't mind 'cause I think you're-

Curtain goes up and the lights come down  
Wanna see the new look, gotta hear the new sound  
And the crowd starts to dance when you hit that chord  
Got the style and the cash and they'll always want more

You wanna go, you wanna play it for the hip kids

I know you fake it but it's none of my business  
I wanna come, I wanna party with the hip kids  
If I wanna fake it it's none of your business

Got the lights  
I really want a fog machine  
Turn it on, turn it up oh make me scream  
Gotta have that rock, that rock and roll  
I decide one, two, three, four, let's go

Curtain goes up and the lights come down  
Gotta have the new look, gotta make the new sound  
I'll be there, I'll be dancing in the front, front row  
I don't care, I don't mind 'cause I think you're-

Curtain goes up and the lights come down  
Wanna see the new look, gotta hear the new sound  
And the crowd starts to dance when you hit that chord  
Got the style and the cash and they'll always want more

Curtain goes up and the lights come down  
Wanna see the new look, gotta hear the new sound  
And the crowd starts to dance when you hit that chord  
Got the style and the cash and they'll always want more
