Graeme Edge)

Since it began I got one dream and really it's my only
blessing

If I can come through then so can you

And you will find there's no regretting

Things you want from your life's front

Will never let your spirit roam

Come back to earth for what it's worth

For you've been dreaming of a ceiling not a home

CHORUS

I've been doing my best

What else can I do?

Is there something I've missed

That will help you through

I have reached the top of my wall

And all I've found is another way to fall

For some short time

For a while you and I were joined to eternity

Then we split in two back to me and you

Like the rain rising from the sea

Rising from the sea

We all can see what we shall be

But knowing's really not controlling

With time perhaps I will pass the traps and find some
peace and

understanding

After you'd come and while you're gone

You leave me guessing-It's depressing

Never to know the way to go to find some time along a
little less pressing

So you just have to laugh

When it hurts so much

YOU're so far away and so hard to touch

I have reached the top of my wall

and all I've found is another way to fall

(Repeat 1st Verse)

CHORUS
