Justin Hayward)

Heart and soul took control

Took control of me

Paid my dues spread the news

Hands across the sea

Put me down turned me round

Turned me round to see

Marble halls open doors

Someone found the key

And it's only what you do

That keeps a-coming back on you

And it's only what you say

That can give yourself away

Underground sight and sound

Human symphony

Heard the voice had no choice

Needed to be free

Fly me high touch the sky

Left the earth below

Heard the line saw the sign

Knew which way to go

Cos it's easier to try
Than to prove it can't be done
And it's easier to stay
Than to turn around and run
It's a blue world
It takes somebody to help somebody
Oh it's a blue world
It's a new world
It needs somebody to love somebody
Oh it's a blue world
Heart and soul took control
Took control of me
Paid my dues spread the news
Hands across the sea
Put me down turned me round
Turned me round to see
Marble halls open doors
Someone found the key
Cos it's easier to try
Than to prove it can't be done
And it's easier to stay
Than to turn around and run
It's a blue world
It takes somebody to help somebody
Oh it's a blue world

It's a new world

It needs somebody to love somebody

Oh it's a blue world

It's a blue world

It takes somebody to help somebody

Oh it's a blue world

It's a new world

It needs somebody to love somebody

Oh it's a blue world

It's a blue world

It needs somebody to love somebody

Oh it's a blue world
