Long time no see

Short time for you and me

So fine, so good

We're on the road

Like you knew we would

First night, so long

A state of mind

What can go wrong

We're here, the time is right

To rock 'n' roll

Right through the night

Make it work out

Make it work

Make it work out

Make it work out

For each other tonight

Stage fright, candle light

You can't let go

Tonight's the night

Came back for you

Glad to see

That you came too

There's a place a Gemini dream

There's no escaping from the love we have seen

So come with me, turn night today

You gonna wake up

You know you gonna wake up in a Gemini dream

Turned round to see

Where we've been

And what we believe

In life, love

Take a chance

See it through

You'll be glad

That you came too

There's a place a Gemini dream

There's no escaping from the love we have seen

So come with me, turn night to day

You gonna wake up

You know you gonna wake up in a Gemini dream

Long time no see

The lights go up

For you and me

We're here

The time is right

To rock 'n' roll

Right through the night

Living it

Believing it

Wanting it

Make it work out

Make it work

Make it work out

Make it work out

For each other tonight

Long time no see

Short time for you and me

So fine so far so good

We're on the road

Like you knew we would
