Justin Hayward)

I've been thinking

The way people do

'Bout the things that matter

To me and you

I've decided to do what I can

and to find the kind of man

I really am

I can see

The world from here

And it sometimes makes me

Want to disappear

Back to nature

And where we belong

And with just one truth I've found

You can't go wrong

CHORUS

Wherever you go

Whatever you do

Whatever you say

Say, say, say

Say it with love.

I remember

A time long ago

When I heard those guitars

That I worship so

I was captured

I wanted to stay

And to hear that kind of music

Everyday

Heard the songs

around the world

Saw the smiling faces

On the boys and girls

I was destined

To play come what may

And there's just one thing

I knew I had to say

CHORUS

Underneat

A sea of doubt

There's a million voices shouting

Let me out, let me out

When we go

We never return

'Cos there's just one lesson

That we've got to learn

CHORUS
