Graeme Edge, Patrick Moraz)

The sun and moon every day

Day and night mark my play

See the future in the past

Try to change or make it last

Go for broke don't regret

Get your hands dirty get your feet wet

Take your place use me well

I'm in your hands so make me tell

A broken dream seems unkind

But I can help for I am time

(CHORUS)

I can heal you

It's not a matter of slight

Only of sound

Let me... feel for you

Feel for yourself

The love all around

I can... lead you

Is your soul afraid

Of what you've made

Do you know the way the spirit goes

All around on the wind

Distant whispers of what I bring

In the day in the night

Locked in words of lovers delight

If i'm lost or mislaid

Just keep looking don't be afraid

In the eye on the mind

I'm everywhere and yours to find

I'm not far just discover

I'm in you for I am love

Repeat CHORUS
