Justin Hayward/John Lodge)

When I think of all the things

That we've been through

and all the things we've yet to do

I...I start to realise

The world is such a lonely place

Want to be with you

I remember all the heartaches we have known

The angry nights when we were lonely

The jealousy and pain

The world will have to hold its breath

Want to be with you

CHORUS

I don't need a reason

I don't need to understand

I just want to be

Want to be with you

Only want your love

Only want you by my side

Only want to be

Want to be with you

And when I look back down that road

I see the turnings that we both made

The choice we had to make

The promises we break

And nothing more than memories

Want to be with you

The jealousy and pain

Can we remain the same?

The world will have to hold its breath

Want to be with you

CHORUS
