Tip me with one dollar and I said baby here go your  
dollar back  
I don't need your little bitty tip  
If you would even call it that  
I don't look just like a million bucks baby I'm looking  
more than that  
Matter of fact boy here go you a dollar  
I think that we can have fun with that

Pre chorus:

I came up in there with 50 dollars long dollars my own  
dollars  
Came up in there, willing to spend, don't get it twisted  
I'm not your friend

Chorus:

Gone get out my hand now, wanna see you dance  
soo...  
Dance dance for me  
Right now, right now got the money on the ground  
So dance with me  
Instead of you tipping me, I'm a be tipping you  
'Cause I wanna see you dance dance dance dance

Kissed him and I left him  
Looking stupid I told him I'll call him back  
If he had some better tricks well maybe  
Then I would holla back  
I won't give up my whole million bucks  
It ain't worth all of that  
Matter of fact boy please give me my dollar

I think that I can get more for that

'Cause I wanna see you dance dance dance dance

So I'm up... I used to have a boss

Type of girl that can't stip should be calling a shot

The type of girl that breaks nails but don't be breaking  
them off

Stay the same baby don't you...

Let me see what you get... let me see what I got

And even though my money not like it's supposed to be  
I want you to take this tip baby dance for me

It's almost over over what you gonna do for me

Don't let me waste all this money
