"Hello"

Visit "[Hello](#)" on MotoLyrics.com

I get a rush when I am close to you
When we touch to...
You fill me up I can spend my whole life with you
On the road with you
The way you got me hypnotize I get close looking in
your eyes
... you are in control don't you know
I listen every time you speak to my heart
You got my attention
You got all of me
I am so addicted
The only way to fix this
When you speak to my heart
To my heart
Speak back like hello
Where you have been
Where you come from
You are so right for me
So right for me
Every single time it beats
Can you hear me say hello
You are trying to do... hello
You are so right for me
So right for me

The way I feel boy you change my face
And it shows I don't when had to say
I get exposed ain't no coming back for what you do
Boy I am loving you come and caught me by surprise
It feels like I know you form all of my life I can't get you
off my mind
You are in control don't you know

Chorus

I listen every time you speak to my heart
You got my attention
You got all of me
I am so addicted
The only way to fix this

When you speak to my heart

To my heart
Speak back like hello
Where you have been
Where you come from
You are so right for me
So right for me
Every single time it beats
Can you hear me say hello
You are trying to do... hello
You are so right for me
So right for me

I can't believe love is really taking over like this
Baby show me how to fly
I will never come down
Baby this energy is unbelievable...

Chorus
When you speak to my heart
To my heart
Speak back like hello
Where you have been
Where you come from
You are so right for me
So right for me
Every single time it beats
Can you hear me say hello
You are trying to do... hello
You are so right for me
So right for me
When you speak to my heart
To my heart
Speak back like hello
Where you have been
Where you come from
You are so right for me
So right for me
Every single time it beats
Can you hear me say hello
You are trying to do... hello
You are so right for me
So right for me
