Everyone says it's great  
The most beautiful thing ever  
The best feeling you can feel in the world

But it's also a disease  
His face stuck in my head like a real good song  
It's like we belong  
Love, the disease

I can't stop thinkin' about him  
I know this may sound grim  
But it's true  
I wish I could start over new  
And just get over my love

It's a disease  
I dream of me and him  
Every time I'm at the gym  
Love, the disease

Every time I try to confess  
My words fall into a mess  
Nerves get the best of me  
I just wish I could be bravely

It's a disease  
All I know is that I'm in love  
I think he came from above  
Love, the disease  
Love, the disease

Oh love  
Oh Love
