We've all made them
The one's with mayhem
The one's with hurt feelings
But we're just human beings

Mistakes
They may cause headaches
They may cause heartbreaks
Maybe there'll be problems that need solving
Or maybe there's family and friends that need loving
Mistakes

Some of them you need to make
For your and your and loved one's sake
Because it was fate
Why? You'll have to await

Mistakes
They may cause headaches
They may cause heartbreaks
Maybe there'll be problems that need solving
Or maybe there's family and friends that need loving
Mistakes

It's how we learn
There not always a huge concern
So don't worry
You don't have to fix them in a hurry

Mistakes
They may cause headaches
They may cause heartbreaks
Maybe there'll be problems that need solving
Or maybe there's family and friends that need loving
Mistakes
Mistakes
