I find it hard to live
No one said it'd be easy
But somethins gotta give
Because I know there's an ending
Deleted texts and deleted calls
Life in denial, lies and all
She said she loves me, I know she cares
And now there's tough times over there

I'm afraid to tell the truth
It's hard enough to say were through
Youve been hurt before, this is true
Go in peace, and I love you

I was fine
I was fine
She drew the line
And I was gone, I was headed out the door

Twenty two and pushing, a ladder to the sky
I know this now, that I need to climb
When I fall, depends how far
Regain my traction, show my scars
Prolong the fight, pay my dues
Pick up john, play the blues
Bend the notes as hard as I can
My heart is in this now, I'm off to neverland

I was fine
I was fine
She drew the line
And I was gone, I was headed out the door

I'm afraid to tell the truth
It's hard enough to say were through
Youve been hurt before, this is true
Go in peace, and I love you
