We took a walk along the ocean
To see what we could find
A couple shells the other girl from the fishing well
And I decided now that it was time to hide
So maybe there's a better way of going about this
So many I've tried to love I've found that
The minute I try to go. she comes on in

I never meant to go out this way
And I never meant to fill your heart with pain
I keep thinking that somethings gotta change
But all I do is stay the same

I start to run, realize the funs begun
And I've got to keep on running to keep my life
Never saw before, the other things I've done
To keep me out of the wrath of us all
So maybe there's a better way of going about this
So many I've tried to love I've found that
The minute I try to go. she comes on in
Nothing I've found round here can save me
I thought about buying another mercedes
But the minute I sign and drive I crash on in

I never meant to go out this way
And I never meant to fill your heart with pain
I keep thinking that somethings gotta change
But all I do is stay the same

Never saw before, the other things I've done
To keep me out of the wrath of us all
Maybe there's a better way of going about this
So many I've tried to love I've found that
The minute I try to go. she comes on in
Nothing I've found round here can save me
I thought about buying another mercedes
But the minute I sign and drive I crash on in
