[Chosen One]

Yo Yo, sit back and reminist when we first kiss
First held your hands then I kissed your lips
A great feeling inside what we were trying to hide
I think about our past every ince in a while
All the ups and downs with the smiles and then frowns
I'm the king you were the queen here's the crown
Then you getting jealous cause they say I get around
But honestly baby I was working on my sound
heard you moved on got a new boy friend
Dont be a stranger we can still be friend
Until the end ex lovers are best friends
Love is a complicated thing, I dont comprehend
Why it had to end, for where it all began
I'd do it all over again,I'd do it all over again
