Sitting in your room

Clean cut and plain

Looking so truthful

Feeling no pain

Temperature's rising

In your freeze frame

Temperature's melting...

Your golden chains

Dancin' like a chinese clown

Won't do much longer; no, no...

Look at you now, coming down

With your gun - O - O - O

Mommy cries, Daddy lies

Everyday they die

Everybody's in shock

Losing control

Daddy cries, Mommy lies

What does it feel like

Discovering you're stuck here ?

Deciding good

Deciding bad

Acting so proud  
And looking so sad  
Waiting in your bed  
Watching the door  
Waiting in your bed  
Ready to fall  
Keeping yourself from the crowd  
Won't do much longer; no, no...  
Look out now who's coming down  
With a gun; O - O - O...  
Mommy cries, Daddy lies  
Which way paradise ?  
Everybody's in shock  
Don't lose control  
Daddy cries, Mommy lies  
What does it feel like  
Discovering yourself ?  
No love / no tear - No life / no fear  
No love / no tear - No pain / no fear
