Prisoner on the rack
I can tell you where it's at
Escape is the first step toward the next attack.

Another time I said too much
Another time I crushed a crush
But you'r so cool with a slap to bring me back.

That's when the lights go out
That's when the lights go out.
That's when the lights go out.
I find it everywhere you are
I find it everywhere.

I can't sleep enough
Think enough drink enough.
In a lie and I can't even believe in hope.
I'm a leo changing the planet to reno.
If we got a needle we can shine a sheener show.

That's when the lights go out
That's when the lights go out
That's when the lights go
I find it everywhere you are
I find it everywhere.
