carl
forever

[spoken]
i know i messed up
and i know its hard to forgive and forget
i want you to know if you took me back things would be
different
your friends tell you once a cheat always a cheat
but i cant breathe without you
i cant see without you
forever

[verse one]
i can walk a thousand miles in another mans shoes
i can smile and pretend i dont know how it feels like to
lose
i can love a thousand girls but they wouldnt be you
i dont know what to do without you

[chorus]
let me come back
if you dont believe im changin
let me come back
ill show you im for real
baby know that
im steady rearrangin
can we start again if ill promise you
forever
forever

[spoken]
you see in a way i feel like what happened was a good
thing
because it made me realize how much i need you
how much i love you
forget what everybody tells you
and everybody says
and let me make it up to you
let me make it right for you
let me make it forever

[verse two]

i messed it up so bad because i tried to play the game
im missin what we had and i want it back again
i can only apologize but i cant erase the pain
i know that we can make it through the rain

[chorus]

let me come back
if you dont believe im changin
let me come back
ill show you im for real
baby know that
im steady rearrangin
can we start again if ill promise you
forever
forever

[bridge]

take me back to the place you said you wanted me
take me back to the place you said you wanted me
take me back to the place you said you wanted me
baby we can make it through the rain

[chorus]

let me come back
if you dont believe im changin
let me come back
ill show you im for real
baby know that
im steady rearrangin
can we start again if ill promise you
forever
