His name is Ben, his 20 years old
He had a good reason to celebrate the night
He joined in.to fraternity party
And latter they hit a bar a mile from home
What happened next was a cause for celebration

Nothing at all, nothing at all
He keep on party, party with his bottles
He had so many bottles of beers 'n
12 shots of vodka water
Watch out Ben, you're never heard
Of alcohol being killer
Ben drank too much but he doesn't care
Di dam da dam da dam, di dam da dam da dam

He getting high 'n getting higher
He getting high 'n getting higher
Till round midnight someone at the frat
House screaming louder louder
Ben stop breathing, had stop breathing
Ben stop breathing, had stop breathing
And was in full cardiac arrest
And was in full cardiac arrest
You booze you lose that was what to do
Di dam da dam da dam, di dam da dam da dam
