I'm gettin' edgy  
All the time  
There's someone around me  
Just a step behind  
It's kinda scary  
The shape I'm in  
The walls are shakin'  
And they're closing in  
Too fast or  
A bit too slow  
I'm paranoid of people  
And it's starting to show  
One guy that  
I can't shake  
Over my shoulder  
Is a big mistake

Sitting on the bed  
And I'm lying wide awake  
There's demons in my head  
And it's more than I can take  
I think I'm on a roll  
But I think it's kinda weak  
Sayin' all I know is  
I gotta get away from me

I tell you something  
Just ain't right  
My head is on loose  
But my shoes are tight  
Avoiding my friends  
They all bug  
Life is like a riddle  
And I'm really stumped  
If you reason  
Don't you know  
Your own preoccupation  
Is where you'll go  
I'm bein' followed  
I look around  
It's only my shadow

Creepin' on the ground

Sitting on the bed  
And I'm lying wide awake  
There's demons in my head  
And it's more than I can take  
I think I'm on a roll  
But I think it's kinda weak  
Sayin' all I know is  
I gotta get away from me  
Gotta get away from me  
Gotta get away from me

Whoa-oah-oah, whoa-oah-oah  
Whoa-oah-oah, whoa-oah-oah

Sitting on the bed  
And I'm lying wide awake  
There's demons in my head  
And it's more than I can take  
I think I'm on a roll  
But I think it's kinda weak  
Sayin' all I know is  
I gotta get away from me  
Gotta get away from me  
Gotta get away from me  
Gotta get away from me
