"Breathe"

Visit "[Breathe](#)" on MotoLyrics.com

Today the sun came through
I saw the clearest day
It all looked so real
The colors blinding rays

And the light
Carry me along for a ride
The need to find your wings
Space so I can

Breathe
Keep me going strong
Let me breathe slowly
Breathe air is all I need
And your tender touch
Keeping me from falling

I see Blue and White
A lost cloud makes it's way
I feel the blood run through
My veins so I can

Breathe
Keep me going strong
Let me breathe slowly
Breathe air is all I need
And your tender touch
Keeping me from falling

Air is all I need,now
Air is all I need,now

Breathe
Keep me going strong
Let me breathe slowly
Breathe air is all I need
And your tender touch
Keeping me from falling
