Falling leaves
I think I might just hang around
Under the breezing trees
Here we we're
I'm not that sure it's all blur
But somehow I feel relieved
Did you fake it
Did it mean that much

Sliding in the wrong direction
Life's a bitch no need to mention
Nothing that you'll say or do can make it right
Light one up I'll do my drinking
You can tell what I've been thinking
It's great to be alive
So come on
Cause it's you that's standing still
While I pass you by

Plain to see
If that's the way
Don't be afraid to get up and leave me
I could break it
If it don't mean that much

Sliding in the wrong direction
Life's a bitch no need to mention
Nothing that you'll say or do can make it right
Light one up I'll do my drinking
You can tell what I've been thinking
It's great to be alive
So come on
Cause it's you that's standing still
While I pass you by

Pass you by
Pass you by
Pass you by

Sliding in the wrong direction
Life's a bitch no need to mention

Nothing that you'll say or do can make it right
Light one up I'll do my drinking
You can tell what I've been thinking
It's great to be alive
So come on
Cause it's you that's standing still
While I pass you by

Life is gonna pass you by
Life is gonna pass you by
Life is gonna pass you by
