Look I tell you, the moment calls you though I hoped it  
would never come  
Your part begins here, the final mist clear don't wait 'til  
tomorrow leave  
Tonight  
These are the days without a trust, and travel in secret,  
yes you must  
Deny yourself now and all your fears how, be brave and  
great forces 'll be  
With you

I hear his voice in the night, a prophecy of no morning  
light  
Unless we succeed to tie back the hands of hate in the  
gathering darkness

Be on your guard now, get out of Shire and stay of the  
roads, be still by  
Night  
At the homely inn is where I'll meet you, good faith,  
don't you leave him  
Out of sight  
I can't relieve this burden that heavily rests upon your  
shoulders  
I'm sad to leave you now but I will seek advice at the  
head of my order  
He will help us to face our destiny

I hear his voice in the night, a prophecy of no morning  
light  
Unless we succeed to tie back the hands of hate and  
the gathering darkness  
I hear his voice in the night, this demon eye hunts  
across the sky  
Shadows move in the dark the enemy rides again in the  
gathering darkness

I hear his voice in the night, a prophecy of no morning  
light  
Unless we succeed to tie back the hands of hate in the  
gathering darkness

I hear his voice in the night, this demon eye hunts  
across the sky  
His magic's too strong my will come undone before this  
cold and gathering  
Darkness
