Refrain

It's just pain

What you're giving me

It's just pain

What you're giving me today

Strange times will come over me

when it's over

Will eat me when I show me

When it's over

Time will heal me

Time will getting me

Refrain

Everyone is caught by strange times

Think you're fallin'

See you stand up

Find the love and lose it

Take the "drug" you're think it is the right

I will never keep you off

I will never keep you off

Some day you will looking up to me

When I'd let you go!

When I was strong enough to let you go

When it's over

Floating anywhere to find some holes when it's over

I'll push you to be in the dark

When it's over

Refrain
