I have seen the course from here and I am not sold
Wage slave line so a few can get up
I have seen the hand they hold and I will not fold
Tape me shut, outside lines are cutoff

...and this is the wrong direction
We're losing our lives to the past
Leave everything behind and turnaround

I have seen the road ahead and its less known
We can pave where it will take us
I have seen the plan for us and its corrupt
Wiating for no one left to stand

...and this is the wrong direction
We're losing our lives to the past
Leave everything behind and turnaround
Wake up, time is on its way

...and this is the wrong direction
We're losing our lives to the past
Leave everything behind and turnaround.
