[Intro] Oren, what's up dog? Ready to rock? Rise, yo.
Yo, hold on a second Yo I'll be right back. Naw, (In my word). Hold on Yo son, another voice just popped up in my headphones Singin'. No, that's not my voice, that's totally different voice You didn't hear it? Right there. (I see you sometimes) Alright, check the board and see if any of the tracks are lightin' Or anything else is goin'. Just stop for a second Check the board to see if anything else is playing Right there. Y'all don't hear that? Don't hear that? [Verse One] It's like I rhymed and I rhymed and I rhymed and I zoned Then I rhymed then my mind has a mind of it's own And all these moments in a thought pattern and signals I send The rhymes revised three times before it gets to the pen Freestyle Memories bad, I remember I'm dope Names are dumb, we're all one, I remember you yo But Thoughts in my dome strong, prone to defeat Not a single day alone, I build Rome in a week In my head Sometimes I grow two ears, know who's a grandma to me No needs to talk to Cause now, who's gonna answerin'? I'm wrapped in my brains that happened like right on first Cause art from life bites, vice verse in my life's work No rest Compose for the spirits and bodies who feel it But this, songs in my head so I don't know if y'all hear it But, when it plays it holds you I create each phrase to go to My delivery is postal Hope you think I crazy don't you? [Verse Two] Check You said everywhere there's lessons you can figure out how Sorry I asked myself some questions and I answer them loud I'm buggin' out So I'm walkin' outside in a bop Entirely too hard to a song I ain't even got The radio ain't playin' And the people, look how they ask They think I'm about to wild out while of this of this rap I would clap to this beat in my head if y'all heard it Said, "Oh, I got the flow down, I just got to word it" I'm gone I'm in my mind's mansion I don't know how it happened The last thing that I saw...a bunch of clowns dancin' ? everything's material And everything that happened now Happened a few years ago Appears as though a genius I make sense of my trouble Or am I just a drunk Dumbo seein' elephants bubble? But they don't rise in the streets Wanna rise to

the truth So I'm in the booth With beats that cause a
rise to the roof
