Yeah!

Forget your fears. (It's time to let it go)  
We're almost here (No need to talk baby)  
It's now or never (Which will it be?)  
Which will it be?

So pull me down  
It's just began  
So pull me down  
We've just began

I've waited for so long  
For this to come to light  
Now that it's here  
Don't loose yourself

It's taking too long  
To forget you  
I've tried again  
And again but I,  
Have failed.

So pull me down  
It's just began  
So pull me down  
We've just began 2x

(Don't try to save yourself,  
We've just began)

Don't try to save yourself  
We've just began!
