I don't know  
Why this world is full of anger  
Where do we go  
Have we lost our way forever?

Is it true that we hide  
Behind fear and despise  
And we close our eyes  
Letting shadows into our life

Can it be that we are not\_free  
There's something broken inside  
Can it be we are blind to see  
That we are fallin' apart

In the night, we can hide  
Until we have no tears to cry  
Look inside, you will find  
A part of us, we shouldn't hide

Can it be that we are not\_free  
There's something broken inside  
Can it be we are blind to see  
That we are fallin' apart

Is it true that we hide  
Behind fear and despise  
And we close our eyes  
Letting shadows into our life

Can it be that we are not\_free  
There's something broken inside  
Can it be we are blind to see  
That we are fallin' apart
