I'm going to haunt you, haunt you ?til your dying day
I'm going to make you, wish you'd never gone away
I'm there beside you everyday, through the night time
too
And you can't get away, no, you can't get away

I'm going to haunt you, no matter where you try to hide
No one will want you, never keep you satisfied
So softly I'll remind you of the ways you let me down
And you can?t get away, oh, you'll never get away

You must leave now and take what you need with you
And if you know what's right you'll start telling the truth
I helped you get your feet back on the floor
Now I don't need you and I never did before

I'm going to haunt you, haunt you ?til your dying day
Yeah, I'm going to make you, wish you'd never gone
away
I'm there beside you everyday, through the night time
too
And you can't get away, no you can't get away

I'm going to haunt you
Yeah, I'm going to haunt you
I'm going to haunt you
I'm going to haunt you
