Late at night
Lookin' at the stars
I'm thinking of you baby
Wond'rin where you are
When I say goodnight
Turn out the light
I still lay awake
Dreamin' of you
Holdin' me tight
Starlight, starbright
Wish I may, wish I might
Won't you make him love me too
Make him want to hold me too
(And promise me forever)
And wish upon a star
As I do
Wond'rin if I'll ever feel your kiss
In my dreams I see your smilin' face
Trace a finger 'round your lips
I hope and I pray
That maybe someday
You and I together
Will find our way
I'll never stop wishin' on that star
'Til my dreams come true
And I can hold you
And love you
Starlight, starbright
