Look at me mom
Shining like the sun
Bright as the day
You're my number one

And there's no treasure
That I will cherish like you

And when I smile
They all see you glow
And they all know
You're my number one

My one and only joy
Is to give you my love

(Bridge)
My one love for you
I give through and through
I see you and the signs that bring joy
That all the world can see so clearly

Look at me mom
Shining like the sun
Bright as the day
You're my number one
