So I'm in the cut, chilling posted on the couch with the
mac screen
Track fiend... on the rap scene
Caffeine flicks with the caramel cream stick in it
Chill down while I'm soundcloud steady listening
New tabs opened up, tweet my base folks
To check on... connections waste loaded
Let the page load, then back to the land of status
updates
I must say, these facebook relations are some love
hate
But wait, I see down on the sidebar, something I find
quite hard
To believe, when all my closest peeps wanted to try
scar
... rumors and rumors and you can choose to listen
But these dudes tryina bruise up my credentials
Posting up on the mate's wall without knowing
We're all mutual friends, though
But that is swear they phasing me out
When they done get to me, that's a recipe for
something quite pathetic

Take it easy, it's alright, if I mind on my cedar bout you,
it's alright
So take it easy, it's alright,
Dem a know a dem a have no... x 2

I spend my time stuck in my room caught in the gloom
Feeling like there ain't no escaping this place, but I
don't see the point
I got a date with faith and I'm already running late
And go sip on my mistakes, really, ain't nothing new
Like see gonna make it in music and what you tryina do
What's the point of what you tryina pursue
It's just a waste of time and I never get the essence
But I do wanna get my fans proud and not just for this
... for that I apologize
Cause there's many times as I tried and...
I just couldn't love it,
And it ain't over cause my old man done said

I see my youth drift away, as I pull another bucket
But deep down, I know he understand
And when I talk of what I could have been
He knows who I really am
So for you I would, give this all up
But you never asked me to,
So when they talk you, I couldn't give it up

Take it easy, it's alright, if I mind on my cedar bout you,
it's alright
So take it easy, it's alright,
Dem a know a dem a have no... x 2

Take it easy, and don't worry bout, I'm minding my
cheesing
Only if you give a man a good reason
Better watch or that man might catch you sleeping
Better believe it,... lick shot to tie me... bye bye,
But di boy put a smile upon me face

Take it easy, it's alright, if I mind on my cedar bout you,
it's alright
So take it easy, it's alright,
Dem a know a dem a have no... x 2
