Tell me down, tell me down

[Chorus]

And it goes like tick tock, on my clock
You in my mind non stop
Every day and every night
Girl you always on my mind
Like tick tock, on my clock
You in my mind non stop
Every day and every night
Girl you always on my mind

See I never got times, well I got your number
See I try by the end of the laughter
With the smile on your face say no boy tease you
You could try when the girl be older
So I just moved on and met your sister
Pretty face and she needed no fixture
No you looking at me, fingernail...
But I don't think you're gonna get the answer
Because
Say you did in better days
Now you see I'm the best of gaze
So you wanna get it all with me
But you know your sister's who I like
I'm not here to play no games
Once I love to glow like flames
Tell me move so fast, but my heart beats slow
For your sister

[Chorus]

And it goes like tick tock, on my clock
You in my mind non stop
Every day and every night
Girl you always on my mind
Like tick tock, on my clock
You in my mind non stop
Every day and every night
Girl you always on my mind

I drink, drink, I'm still here too...

See this guy, you again now, you don't listen
Chill out, these girls stretch me like tinting
... me alone, no lover
I call it fool nah, but shawty know the...
See I did it... pocket, the things that I do
You get pierced pass bullets,
Pass bullets? Huh, baby rude...
I bet ah pass you, funny face went in it...
Sarah neva try, but Vera is a legend

[Chorus]

And it goes like tick tock, on my clock
You in my mind non stop
Every day and every night
Girl you always on my mind
Like tick tock, on my clock
You in my mind non stop
Every day and every night
Girl you always on my mind

So gonna break now with the sister
Tell her funny if you get the picture
... kinda say I'm a... at heart
She talks talking, she wants attention
We start walking... your time is gone
I got your sister, she feels my song

[Chorus]

And it goes like tick tock, on my clock
You in my mind non stop
Every day and every night
Girl you always on my mind
Like tick tock, on my clock
You in my mind non stop
Every day and every night
Girl you always on my mind.
