Don't you get it?
I'm not gonna leave you out
Don't you get it?
I'm not gonna leave you now
The rope your hopes are dangling from
Is unraveling and coming undone
But I will always be holding on
To you
(chorus)
I love you
I love you
I love you
Don't you get it?
I'm not gonna leave you out
Don't you get it?
I'm not gonna leave you now
You're embarrassed and ashamed I can tell
Living in your handmade hell
Well that's a place I know too well
I do
(chorus)
I'm just glad that you didn't run
Cause we've all been there everyone
I know you're feeling dirty and dumb
No need to
(chorus)
