Send the armies and darkest hours  
Every flag, every sword and power  
I will never turn  
I will never turn  
No, no, I will never turn from You  
Take the lives of our sons and daughters  
Lead me out like a lamb to slaughter  
I will never turn  
I will never turn  
No, no, I will never turn from you

Chorus:

Only your name's on my soul  
Only your cross left to hold  
Only your love's in my veins  
Only for your fame

Let a kiss from the world seduce me  
Warm my skin with a touch (and) confuse me  
I will never turn  
I will never turn  
No, no, I will never turn from You

Repeat Chorus 2X

Bridge x3:

I'm not giving in  
Not selling out  
Not giving up  
Not bowing down

Repeat Chorus x2 w/ bridge:

Leave me lonely abused and battered  
All the pieces of my world scattered  
I will never turn  
I will never turn  
No, no I will never turn from You
