"I'm A Star"

Visit "[I'm A Star](#)" on MotoLyrics.com

The only kid here that exceeds...
Every body know my name and I never played...
Never had money... excuse me if I am exhausted...
God damn... another love... graduate out the ghetto
Got a million on the neck... and I know
I am gonna be far cause my momma said that I am a
star
My momma said that I am a star

She said I am a star but I have no common sense
I worked at a mill mom we don't have no common
sense
... look how far he went... please leave my house
alone... ask nigger
...
... graduate out the ghetto
Got a million on the neck... and I know
I am gonna be far cause my momma said that I am a
star
My momma said that I am a star

If the is the one that I am he
The only one you should see
... me or my personality they would never fall like...
But I am polo out... cause mom you have been here
You grew up here...
We open another level... graduate out the ghetto
Got a million on the neck... and I know
I am gonna be far cause my momma said that I am a
star
My momma said that I am a star
