Almost asleep when you ask me
Where I would want to be
Move in little bit closer
Breathing in when you breathe out
Falling asleep to your heartbeat
I want to be in your heart
I want to be in your heart
I want to be in your heart
I want to be in your heart

Laying awake in the morning
Kissing you while you sleep
Move in little bit closer
Close to where I want to be
Falling asleep to your heartbeat
I want to be in your heart
I want to be in your heart
I want to be in your heart
I want to be in your heart
