Sunrise
Is it time to wake up now?
Last night, had the time of my life now
If you got somebody,
Who makes your world go around
Don't let go of that body,
Don't even gotta make a sound

I don't wanna wake up [10x]
I don't wanna wake up

Opened my eyes
I still feel like I'm dreaming
Realized tonight,
That this is more than a feeling
If you got somebody,
Who makes your world go around
Don't let go of that body,
Don't even gotta make a sound

I don't wanna wake up [10x]
I don't wanna wake up

If you got somebody,
Who makes your world go around
Don't let go of that body,
Don't even gotta make a sound

Everything you want, everything you need
Everytime you look around,
I start thinking about,
Wondering what life would be without you holding
