There I said it, it's out of my mouth
I hope you heard it cause it's too late now
Do you get it, that I come unglued
When I pick up the phone and I see that it's you
Don't wanna rush it but I'm letting you know
Just what I'm feeling from my head to my toes
And I can't help it if I don't make sense
But I've made up my mind, jumping off of the fence
We can't deny, girl you and I
Fit together like a hand in a glove
Like a kiss and a hug, girl you're the one

The stars have got an endless sky
And the melodies got words that rhyme
Baby I got you
Like sonny and cher on the tv screen
My heart has found the missing piece
Cause baby I got you
I got you

What you thinking? cause you're smiling at me
While I'm standing here with my heart on my sleeves
So come and take it cause it's already yours
Gonna call off the search, found what I'm looking for
We can't deny, girl you and I
Fit together like a hand in a glove
Like a kiss and a hug, girl you're the one baby

The stars have got an endless sky
And the melodies got words that rhyme
Baby I got you
Like sonny and cher on the tv screen
My heart has found the missing piece
Cause baby I got you
I got you

I got you and you got me
When you're around I'm so happy
Cause this thing we got makes people wanna stop
Take a picture cause it's so beautiful
You make me wanna shout it

Tell the world all about it
And no matter where I go, what the future holds
I got you

The stars have got an endless sky
And the melodies got words that rhyme
Baby I got you
Like sonny and cher on the tv screen
My heart has found the missing piece
Cause baby I got you
I got you
