You can say 'I love you' a thousand times
This words will never get on to me
Girl you're the one thing in my life
I was never too blind to see
And Baby it's you, the one who came & swept my heart
away
And if it's all that I do
I'm gonna try to be the best man I can for you

I love the way that you touch me
I love the way that you give me
The first kiss when we wake up and lie in the morning...
Girl without it I just can't survive...
I love the way that I miss you
And all the little things that you do, yeah yeah...
The great talk just to say that you love me,
Girl without it I just can't survive...

Girl I see my future in your eyes
And I'm gonna ride to where I belong, Yeah Yeah...
I'm gonna be the one who's gonna give you everything
And girl I promise that I never do you wrong
I need the best thing in my life to breathe on...
- It's you -
... The one who came and swept my heart away
I'm gonna try to be the bast man I can for you

I love the way that you touch me
I love the way that you give me
The first kiss when we wake up and lie in the morning...
Girl without it I just can't survive...
I love the way that I miss you
And all the little things that you do, yeah yeah...
The great talk just to say that you love me,
Girl without it I just can't survive...

And whatever stronger tomorrow brings...
I know it's okay, 'cause you'll be there for me
And I'll be there for you the rest of my days

I love the way that you touch me

I love the way that you give me
The first kiss when we wake up and lie in the morning...
Girl without it I just can't survive...

I love the way that you touch me
I love the way that you give me
The first kiss when we wake up and lie in the morning...
Girl without it I just can't survive...
I love the way that I miss you
And all the little things that you do, yeah yeah...
The great talk just to say that you love me,
Girl without it I just can't survive...
